Fitout

Mfcc Fitout are manufacturers of the highest quality of marble, paints, gypsum board, wooden work like : chairs, sofas, desks, tables, banquette seating for hospitals, offices, waiting area, healthy complex, restaurant

www.mfcksa.com

Our Experiences

Gypsum work refers to the application, installation, and design of products derived from the mineral gypsum (calcium sulfate dihydrate) in construction and interior design. It is a versatile, lightweight, and eco-friendly technique widely used for creating modern interior elements like false ceilings, partitions, and decorative moldings

Paint work is the transformative, meticulous process of applying coatings—such as paint, pigment, or lacquer—onto surfaces for protection, preservation, and aesthetic enhancement. It serves as a crucial barrier against weathering, corrosion, and wear, while also acting as a medium for artistic expression and interior design

Electrical work is a skilled trade focused on designing, installing, maintaining, and repairing electrical infrastructure in residential, commercial, and industrial settings. It is essential for modern life, ensuring the safe and efficient distribution of electricity to lighting, appliances, and power systems

Installing marble is a high-end, artistic, and technical process that transforms spaces with a luxurious, timeless finish. Because marble is a soft, porous natural stone—falling between 3 and 5 on the Mohs scale—it requires precision to avoid cracking, staining, or uneven surfaces

Asphalt Work

Wmf.Cc

Wmf.Cc

Our Work

Asphalt is a mixture of aggregates, binder and filler, used for constructing and maintaining roads, parking areas, railway tracks, ports, airport runways, bicycle lanes, sidewalks and also play- and sport areas. Aggregates used for asphalt mixtures could be crushed rock, sand, gravel or slags

Our Work

An asphalt paving machine distributes and levels asphalt to transform rough terrain into smooth surfaces. It also uses a screed to compact the asphalt, reducing its volume. In the past, large construction crews paved asphalt manually with shovels and picks
